

INTERNATIONAL SOCIETY FOR REEF STUDIES

www.coralreefs.org

ISRS is the only international scientific society focused on the research and management of coral reefs, one of the world's most endangered ecosystems. It is the main global organisation that reef scientists and managers around the world support.

Join ISRS – it's the right thing to do!

ISRS:

- Publishes *Coral Reefs*, the only scientific journal dedicated entirely to coral reefs, and a newsletter *Reef Encounter*.
- Runs the International Coral Reef Symposia (ICRS) and offers reduced registration fees for members.
- Provides Graduate Fellowships and acknowledges the work of its members with awards and honors.
- Provides support to academic institutions, marine laboratories, and conservation organisations.
- Has membership fees tailored to individual circumstances. Students can join for as little as US\$20-40 a year.
